APPENDIX FOR FILE RECORD

25X1  
SUBJECT: [REDACTED] Demonstration at National Institutes of Health

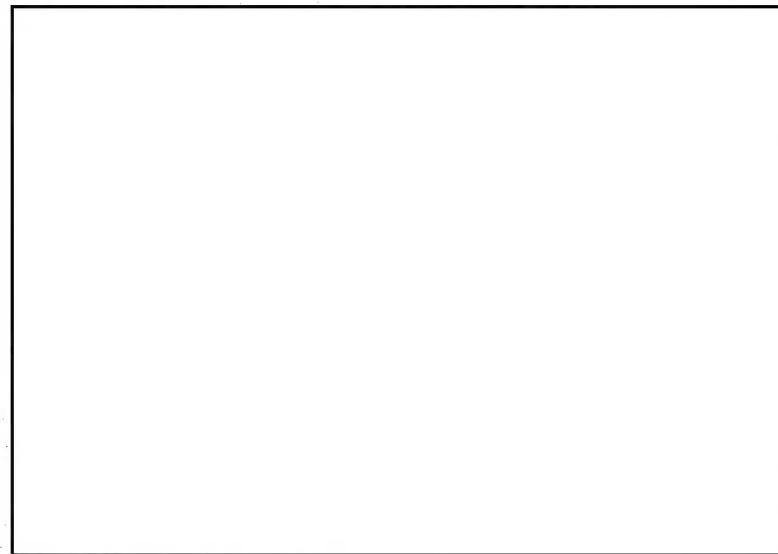

1. On February 6 and 9, 1970, the [REDACTED] fulfilled part of its contractual obligation [REDACTED] by presenting demonstrations of the capabilities of their graphics terminal in performing intelligence related tasks. Two demonstrations were held on Friday and two on Monday at the National Institutes of Health in Bethesda, Maryland. Each presentation lasted approximately two and one-half hours and a total of 57 Government personnel saw the demonstrations.

25X1  
25X1

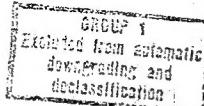

2. The demonstration on graphics began with the creation of simple two-dimensional graphics and progressed through the manipulation of two three-dimensional objects in three-dimensional space. For example, an aircraft was positioned in a revetment to see how well it fit. The display on editing functions showed how text could be entered, stored, reviewed and edited. Words, phrases, sentences and paragraphs were moved or changed. A paper tape was punched for input to the Photon typesetter, and a sample of the output of the Photon was shown. A handout (attached) describing the program and the [REDACTED] terminal was given to each observer.

25X1

3. Personnel from NPIC in attendance were:

## 4. Other Government personnel present were:

[redacted] - National Institutes of Health

[redacted] - D/Ch Publications Division/ODGI

[redacted] - ADP Coordinator/DIAAP-9

[redacted] - NSA

[redacted] - Chief/C-6/NSA

[redacted] - Special Asst. to Director/OEGI

[redacted] - NSA

[redacted] - ADP Coordinator/DIAAP-9

[redacted] - Chief/Printing Services Division

[redacted] - Printing Services Division

25X1

## 5. Personnel from [redacted] were:

[redacted] - Regional Sales Manager

[redacted] - Senior Vice President

[redacted] - Applications Programming Director

[redacted] - Applications Programmer

[redacted] - Director of Applications

[redacted] - Vice President of Marketing

25X1

25X1

6. All of the participants I talked to seemed quite impressed with the demonstration. Everyone was not convinced that such a display terminal should be purchased but I did not talk to anyone who could not see considerable potential for the system. On February 10, [redacted] of PSD and Mr. [redacted] of OEGI both called and expressed interest in another demonstration.

25X1

[redacted] also suggested the possibility of jointly funding further research and experimentation. I am continuing to seek additional reactions to the demonstration.

CONFIDENCE FOR THE RECORD

25X1

SUBJECT: Additional [ ] Demonstration at NIH

25X1

1. A total of four demonstrations of the results of our contract with [ ] were presented at the National Institutes of Health in Bethesda, Maryland on February 6 and 9, 1970. Two people from Printing Services Division and two from OBGI attended and called me the day following the last demonstration to ask me if another demonstration could be arranged.

25X1

[ ] of PSD called and indicated that they know of others who would like to attend from their organizations and from [ ] [ ] from NSA has told me that he knows of other personnel from Headquarters who would be interested.

25X1

2. I have arranged with [ ] to present another demonstration at NIH on February 25 at 1800 hours. While this time may be inconvenient for some, it was the only time we could arrange in the near future. [ ] will fly down from [ ] to present the demonstration. It will be quite similar to the previous presentations at NIH.

25X1

3. Names of participants from NPIC are not being solicited as it is felt that there is sufficient interest from the previously mentioned organizations to fill the small space available. However, if space permits, a few NPIC personnel may be scheduled for attendance.
